CABE 2012 SCHOOL SITE VISITS

The following programs will be available for School Site Visits. Please make your selection and enter your choice on the conference registration form.

1. Elementary Programs

a. Two-Way Bilingual/Dual Immersion (DI): These programs have a strong, comprehensive instructional design that includes English Language Development, primary language instruction and SDAIE (Specially Designed Academic Instruction in English/other non-English language). There are two language groups represented in the Two-Way classroom: English learners and English proficient students who serve as language models for each other during the instructional day. The goal of this program is to promote high levels of bilingualism/biliteracy in two languages.

b. Structured English Immersion (SEI) and Transitional Bilingual Program (TBP): Students receive primary language instruction in core subject areas with the goal of transitioning students to full English language instruction. Students continue to learn more difficult listening, speaking, reading and writing skills in English through English Language Arts and English Language Development (ELD) Instruction. Once transitioned to English language instruction, primary language support is provided as needed, in math, science, and history/social science from specially trained teachers using SDAIE strategies.

c. Structured English Immersion (SEI): Instruction is entirely in English, incorporating a strong and purposeful English Language Development program and sheltered English strategies. Primary language support may be provided through textbooks and appropriate strategies including Preview/Review methods.

2. Middle School Programs

a. Structured English Immersion (SEI): Students continue to learn more difficult listening, speaking, reading and writing skills in English through English Language Arts and English Language Development (ELD) Instruction. Students received instruction and primary language support, if reasonably possible and as needed, in math, science, and history/social science from specially trained teachers using SDAIE strategies.

b. Two-Way Bilingual/Dual Immersion (DI): This program is for both English learners and English only students. Students interact as language models for each other. The goal for all students is that they learn English and meet grade-appropriate academic achievement standards for grade promotion and graduation; and become bi-literate and multicultural scholars.

3. High School Programs

a. Heritage Language: Hmong/Spanish Speakers: These programs are designed to meet the unique instructional needs of heritage language speakers of Spanish and Hmong who typically have high oral/aural proficiency, combined with under-developed or non-existent literacy. The programs also build upon the cultural literacy of the students.

b. English Language Development (ELD) and Specially Designed Academic Instruction in English (SDAIE): Students continue to learn more difficult listening, speaking, reading and writing skills in English through English Language Arts and English Language Development (ELD) Instruction. Students received instruction and primary language support, if reasonably possible and as needed, in math, science, and history/social science from specially trained teachers using SDAIE strategies.

c. Long-Term English Learner Language Support Program: A pilot program for long-term English learners which provides additional time and instructional strategies to amplify the delivery of the core content for long-term English learners. Additional support is also provided by a Student Learning Center. The Student Learning Center is staffed with university students who serve as tutors and mentors for Long-Term English Learners.
